Big Night Club In Pittsburgh Raided

Twenty-Five Federal Agents Swoop Down On "Show Boat" At Pittsburgh

(International News Service) PITTSBURGH, May 15.—Four men were arrested and a quantity of alleged liquor was seized early today when 25 federal agents swooped down in a spectacular raid on "The Show Boat." Pittsburgh's largest night club. Those taken into custody gave their names as Louis "Doc" Markowitz, reputed manager of the floating cabaret; Jackie Klein, Milton Jaffe and Thomas R. McPharland.

Klein was a prominent figure in the vice crusade here several years ago in which William L. King, investigator, was charged with having accepted a bribe. Jaffe is alleged to have been the proprietor of a gambling room on the boat.

In addition to the confiscated liquor the government agents also seized three roulette wheels and one dice table on the palatial boat.

Th raid went off like clockwork when the signal was given. Four prohibition officers were planted in the main dining room, and another group boat was tied.

Six officers segregated the kitchen employes, six others piled into the gambling room where a near panic was averted when the patrons were permitted to leave the boat quietly. Th gambling equipment was placed under guard of federal agents and was to be turned over to District At-

STOP Moth Damage

Here is great news! Moth prevention is now on a strictly scientific basis. No chance for failure; no chance for moth-damage when clothing, rugs, drapes, furniture, household woolens, etc. are treated with Konate.

The Konate process, applied after dry cleaning, leaves no odor, causes no shrinkage; has no effect on fabrics except to make them immune to moth attack for three years. A Lloyds Casualty Company Indemnity Certificate positively protects you for three years.

Don't stop with merely reading about Konate; call for estimates and full information. The low cost will surprise you . . . the results will delight you.

Simple Remedy For Bad Stomach Gives Swift Relief

No Need of Strong Medicines or Diet. Safe and Simple Home Recipe Keeps

Bloating-you may have quick and certain relief by following this simple advice. Don't take strong medicines, artifi-

cial digestants or pull down your system with starvation diets. For within reason most folks may eat what they like if they will keep their stomach free from souring acids that hinder or paralyze the work of digestion. And the best and easiest way to do this is to follow every meal with a little Bisurated Magnesia-a pleasant, harmless, inexpensive, and handy to use preparation that all reliable druggists can supply in either powder or

ablet form. Its use promptly neu-alizes acidity and keeps your stomch sweet and clean. A week's trial of Bisurated Magnesia should quickly convince you that 90 per cent of ordinary stomach distress s absolutely unnecessary. The Torrid Zone STEEL FURNACE

is gas-tight and dust-tight because it is riveted

WINTER can be a steady succession of wholesome "June days" in any home that's heated by a Torrid Zone Warm Air Furnace of boiler-plate steel. In coldest weather, when windows are tightly closed ... even after this furnace is refueled or stirred up ... the air

For just as the steel gas-tank is made gas-tight by being hotriveted and cold-calked . . . so the Torrid Zone Furnace is made gas, smoke and dust-tight.

Furthermore, the furnace that allows more than a minimum of coal-gas to escape up the chimney or into the house is downright wasteful. There's heat energy in coal-gas . . . heat energy that the Torrid Zone fire-pot through better combustion turns into clean, healthful heat. That's one reason why a Torrid Zone saves the coal pile as well as the curtains, walls and ceilings. It is designed to heat with from 10% to 20% less fuel than ordinary furnaces. Pick your favorite fuel . . . soft coal, coke, hard coal, lignite, wood, gas or oil . . . and get more clean, healthful, economical warmth from it than you ever have before.

RIVETS MAKE THE GAS-TANK GAS-TIGHT

Humidity and air circulation figure big in healthful heating. You get them in just the right degree with a Lennox Torrid Zone. You get them because the humidifier has twice the evaporating area inside the casing of ordinary water pans-positioned for rapid evaporation right above the firing doors. And because air circulation is guaranteed when an authorized Lennox Furnace man installs your furnace according to the Standard Code.

Come in and see the furnace, that, because it is the finest that heating science has developed, can add these positive features to home comfort. Let us show you its sturdy locomotive grates, its "lazy" shaker. We have a booklet that describes and illustrates the Torrid Zone in detail that we'll give you. Plans and estimates furnished upon request. Factory blueprints for special problems. Made by the LENNOX FURNACE COMPANY. Syracuse, New York-Marshalltown, Iowa-Toronto, Canada.

FIGURES GIVEN FOR MANY DISTRICTS

Several Beaver County towns shows very substantial gains in population during the past ten years, according to the preliminary figures released today by Census Supervisor, Orville Brown. Among those which made notable increases were Aliquippa and

The count for Beaver Falls is still incomplete, two districts being missing as yet. The city will show a slight gain, however, it is believed The count as completed to date shows a population of 10,962. In 1920 the population was given as 12,802. The number of people in the two districts will probably show a gain for the city of approximately 1,000 or more.

Aliquippa, which was consolidated with Woodlawn borough a short time ago, has a population of 27,295. In 1920, the two towns of Aliquippa and Woodlawn together, had a population of 15,426, having almost doubled its population in ten years. Woodlawn was by far, the bigger place of the two the 1920 census figures for Woodlawn being 12,495 while Aliquippa had

"By Their Works Ye Shall Know Them"

In a recent speech at Erie, Senator Joseph R. Grundy said: "When the work of the United States is done in the United States, there will be no unemployment and labor will be paid satisfactory wages. When the work of this country is done abroad, and by that I mean when we consume foreign products, there is bound to be widespread depression and consequent unemployment, with far-reaching results to our national life."

But, William F. Kelly, International Vice President of the Textile Workers of America, by radio May 7th, charged Joseph R. Grundy with operating in his textile factory nearly seven hundred pieces of machinery made in England and Scotland.

And Senator Grundy has not met this charge of Mr. Kelly. Together with Francis Shunk Brown, candidate for Governor, James J. Davis has always been a friend of the American working man. Those of us who know him in the

Shenango Valley need no argument for this. Francis Shunk Brown as Attorney General initiated and drafted "The Workmen's Compensation Law", "The Child Labor Law", "An Act Increasing Powers of Mothers' Assistance Fund", and "A Resolution Providing for a Commission to Investigate the Subject of Old Age Pensions".

"By their works ye shall know them."

MOST MEN like fishing—but not fishing down the drain-pipe for a IVI slippery razor blade. That's one of many reasons why a vast army of men are praising the New Gillette Blade. Its square ends can't slip out of soapy fingers; and how easily the new blade reaches into the tight little corners around the mouth, nose and ears!

There are so many other big improvements that you won't appreciate them all until you try this New Gillette Shave yourself. Here are just a few: no more wiping or drying of parts. New blade resists rust. "Razor pull" is banished forever by new reinforced corners of razor cap and cutout corners of blade.

Sounds almost impossible to give you all this remarkable new shaving comfort for only one dollar, doesn't it? Yet your dealer has your New Gillette Razor set waiting for you-your choice, in fact, of five styles of handsome cases. Additional new blades are priced at one dollar for ten and fifty cents for five.

Enjoy this new shaving thrill tomorrow morning by seeing your dealer on your way home tonight.

He told of a number of incidents which occured during this great spiritual revival, men, women and children of almost all walks of life becoming soundly converted to Christ. He also told of some of the great Divines of that day, visiting the country of Wales to study the great visitation from God, and going back to their cwn country with the report "surely this is of God." Coal miners held meetings out of the mines and continue them frequently in the mines.

Miss Mildred George led a spirited cospel song service which thrilled the hearts of the congregation, and platform members. She also accompanied Miss Sadie Lewes in two beautiful selections which were enjoyed by all. A saw-phone selection was rendered

by the pastor, with H. L. Miller at the piano. The message of this evening will be "The Lord's Coming! or The Signs of the Times." Miss Sadie Lewes will lead the singing tonight.

The Way

Most of us give ourselves more and perhaps hear somebody tell us we are quite noble. And we tell ourselves we are noble. The fact is, probably. that we are only taking the easiest way, doing the easiest thing. We accept the responsibility or meet the obligation because we do not wish to fuss about it or fight about it. Some people, thought to be high-minded and grand, are only weak.

RELIGIOUS TOLERANCE

There is really more talk about reigious intolerance than there is intolerance. We imagine there is more than there is. The fact is that when people get together and talk frankly about their beliefs, their hopes and who say they believe what they do not believe. Others believe what they claim not to believe. And as to creed, we all know we are attracted by personality and honesty and brains. Right down deep we do not care very much what church a man belongs to

OUT OF PROPORTION

Some people lack perspective when they make their wills. It's bad enough to lack perspective in life. It is even worse in death. For you can leave a will that is perfectly legal and yet perfectly absurd and out of proportion. A Philadelphia woman left a \$10,000 trust fund to be used at least in part to take care of a parrot and a dog. She could have given the parrot to somebody who likes parrots and would have been happy to get it. She could have given the dog to a boy who would love a dog. And she could have done something worth doing for a number of human beings with the

Emily Blair, writing in "Good Housekeeping," tells mothers that instead of acting as literary censors and trying to keep their daughters from reading modern books that deal frankly with life and its problems, they will do well to read the books themselves, so they will know what

their daughters are thinking. Most of us make the mistake of no daughters are thinking about. We try what they really want to do. To understand youth today is a problema problem that is mighty hard to solve. But there is nothing in life more worth working at than this very

Friedman, of course, is way out of class in the javelin throw, with a heave of 199 feet 11 inches as his best mark. Siljander, Rhefus, Frack, and Pattison of Westminster have all made 159 feet, which should push Ewing, Geneva's second-best spear

In the pole vault, Ransom of Geneva, with 11 feet 6 inches, has the edge over Banks, Westminster, whose best mark in competition this year has been 10 feet 9 inches. The loss has been 10 feet 9 inches. The loss of Captain Delahunty, who was good for more than 11 feet, will likely cost Westminster some points here.

Clark and Yourd of Westminster have made 5 feet 10 inches in practice in the high jump, and have made 5 feet 8 inches in meets. Last year Clark made 5 feet 11 inches on three occasions, and cleared the bar at 6 feet once after the event was over. Roberts and Sole of Geneva have been doing 5 feet 10 inches consistently this spring, and may win the event at this heighth. Silijander and Peresenyi, Westminster, have 20 feet 9 inches as their best broad jump mark this spring as compared with 21 feet 3 inches made by Ward of Geneva. Captain Delahunty, Westminster, made 21 feet 7 inches in practice before his leg was injured, but will not MISS HELEN HICKS be available for the meet Saturday

As the events line up, then, Geneva should win firsts in the 100-yard, 220yard, 880-yard, mile, javelin, pole vault, and broad jump. The high hurdles, high jump, and two mile will be closely contested. Westminster should take the 440, low hurdles, shot put, discus, hammer, and high hurdles. This should give Joach Robert Park's Convenantors a score of about 71-64, or an advantage of seven points gained for the most part in the run-

WHAT DOES "B. P." MEAN TO YOU?

TO SOME IT MEANS

BOLD PIRATES

BAYUK

. . . those peg-legged, patch-eyed buccaneers whose ill-gotten gold was spent on strong drink and weak women. But to thousands, "B. P." means "BAYUK PHIL-LIES"-the cigar that gives you all the joy you could want, without costing a pirate's ransom! Ten cents is the price of "PHIL-LIES." You'll say they're worth more!

"PHILLIES" are ripe tobacco. That means no bottom leaves of the plants which are baked and dried by the sun. Nor any top leaves either. They're underdeveloped and lacking in flavor. Only mellowed, middle leaves can give the deep-down pleasure that "PHILLIES" do! Tonight, browse through an old buccaneer book as you revel in the cool smoke of a "PHILLIE."

Back in the early days notices of runaway slaves were posted on trees, posts and rider fences, and the chances of escape for the slave were 100% greater

than they would be today. Take advantage of modern methods of getting your message to the world. The hit and miss poster method went out with slavery.
